

PROJECT DESIGN PHASE -I

SOLUTION ARCHITECTURE

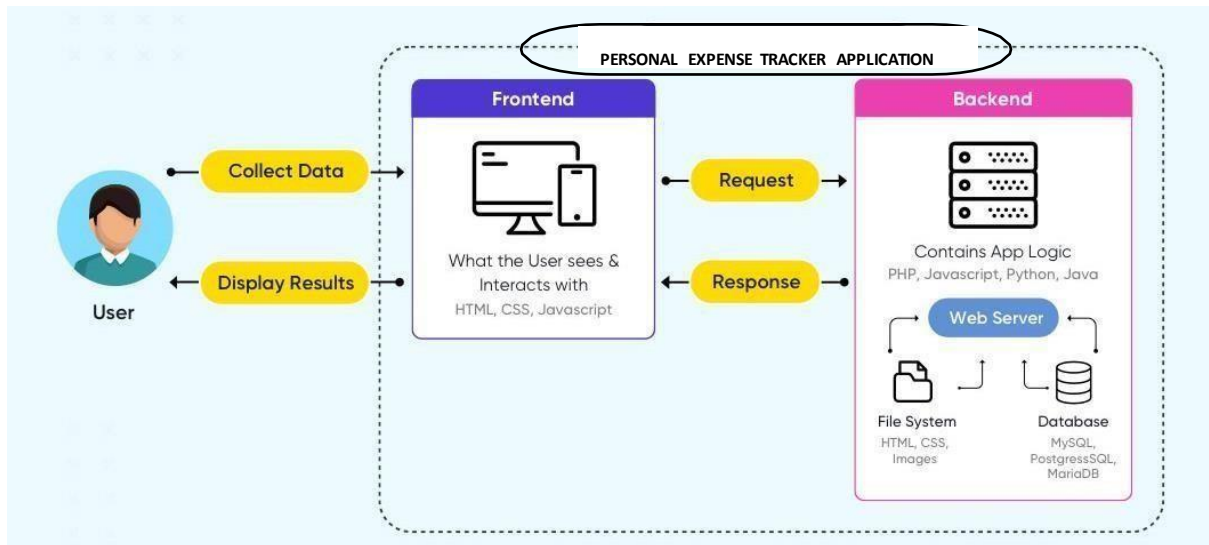

Date	16 October 2022
Team ID	PNT2022TMID20155
Project Name	Personal Expense Tracker Application
Maximum Marks	2 Marks

SOLUTION ARCHITECTURE:

Solution architecture is a complex process – with the many sub-processes- that bridges the gap between business problems and technology solutions. Its goal is,

- Find the best tech solution to solve existing business problems.
- Describe the structure, characteristics, behavior and other aspects of the software to project stakeholders.
- Define features ,development phases and solution requirements to the project.
- Provide specifications according to which the solution is defined, managed and delivered to the customers.
